

IDENTIFY

LOCATE

AUTHENTICATE

ENGAGE

RAIN RFID is a wireless technology that connects billions of healthcare items to the internet, enabling caregivers, administrators and patients to **identify, locate, authenticate, and engage** with each item. Batteries not required. Healthcare and life sciences enterprises are challenged to deliver the best possible patient care while reducing costs and improving outcomes. RAIN RFID technology provides an automated and reliable data capture system that helps enable hundreds of healthcare applications to improve patient safety, manage surgical instruments, support staff and patient workflow, automate replenishment and billing, authenticate quality and sterilization processes, manage medical equipment location and automate supply chain management.

HEALTHCARE BENEFITS OF RAIN

RAIN RFID is revolutionizing the healthcare industry and transforming how hospitals and healthcare professionals manage their inventory, people, assets and supply chain to reduce costs and provide high-quality patient care.

- Higher inventory visibility and accuracy
- Effective recall management
- Improve patient safety and care
- Automate payments and increase profitability

- Reduce product expiration, shrinkage and waste
- Decrease supply chain and equipment costs
- Reduce hospital-acquired infections
- Prevent medical errors due to misidentification

"RAIN RFID is an enabling technology that saves lives, prevents errors, saves costs and increases efficiencies. Many parts of the healthcare industry have already experienced these benefits as shown by the market growth rate of 35% each year through 2020." IDTechEx

HEALTHCARE SUCCESS WITH RAIN

Healthcare companies around the world are achieving compelling results and ROI from RAIN RFID deployments.

UNIVERSITY OF TENNESSEE MEDICAL CENTER

Improved charge capture by 30% using smart trash bins in the operating room.

ST. ELIZABETH HOSPITAL

Saved \$1.3M with stent intelligent cabinets by reducing inventory by 50% and enabling daily orders.

MEDICAL UNIVERSITY OF SOUTH CAROLINA

Avoided \$750K in equipment purchases and improved CAUTI outcomes through automated asset tracking.

RADY CHILDREN'S HOSPITAL

Decreased staff time by 15 minutes/tray for daily medication tray restocking of 200 trays.

FFF ENTERPRISES

Enabled \$0 carrying costs for hospital clients through high-value pharmaceutical inventory consignment.

RESTON HOSPITAL

Completed UDI requirements, and streamlined tissue and implant management using smart freezers.

NORTH YORK GENERAL HOSPITAL

Achieved 100% medication tray restocking accuracy and saved 659 hours of annual staff time.

HANMI PHARMACEUTICAL

Improved inventory management by tracking 60 million items annually.

LONG BEACH MEMORIAL HOSPITAL

Saved \$96K in medication inventory and increased revenue up to \$1M with improved medication use data.

RAIN ALLIANCE MEMBERSHIP

www.rainrfid.org

HELP SHAPE THE FUTURE IN HEALTHCARE

Join the RAIN RFID Alliance and shape the future of RAIN in healthcare. RAIN Alliance is a global association offering healthcare and life sciences technology professionals opportunities to connect, learn and share in the RAIN Healthcare revolution. Membership is open to companies and organizations, including: hospitals, pharmaceutical and life sciences, distributors, manufacturers, software developers, solution providers and academics. Visit the www.rainrfid.org website for more information.
